EHDS2: European Health Data Space for secondary use of health data

Opprettet av Anthony SCHWARTZ, sist endret av David ASTURIOL på mai 24, 2024

Welcome to the EHDS2 Home

This confluence space is used as Knowledge Base for the European Health Data Space for secondary use of health data (EHDS2). Its main purpose is twofold:

- to support the retention of relevant information for the building of the EHDS2;
- facilitate the collaboration between EHDS2 stakeholders.

The access to this space is restricted to stakeholders engaged in the building of the EHDS2. The aim of this space does not include "wide communication" with general public. For that specific purpose, other arrangements are needed.

It is space is administrated and supported by DG SANTE C1 team. Please contact us at EHDS2@ec.europa.eu.
