# PEPPOL Agreements

—

Anna-Lis Berg

# Status

- Small delays in implementing the agreement to be expected
- 2<sup>nd</sup> review has shown the need for an additional round of PA consultation
- Support activities intensified and PA community activated
- National specifications under construction

Activity	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec
MC evaluation (of 2 <sup>nd</sup> draft)	█											
PA verification (of 2 <sup>nd</sup> draft)		█										
PA Consultation			█	█								
MC ratification of final draft				◆								
Formal approval process					█	◆						
PA specific requirements				█	█	█	◆					
Publication of supporting material				█	█							
Signing PA agreement						█						
Migration of SP agreements							█	█	█	█	█	◆

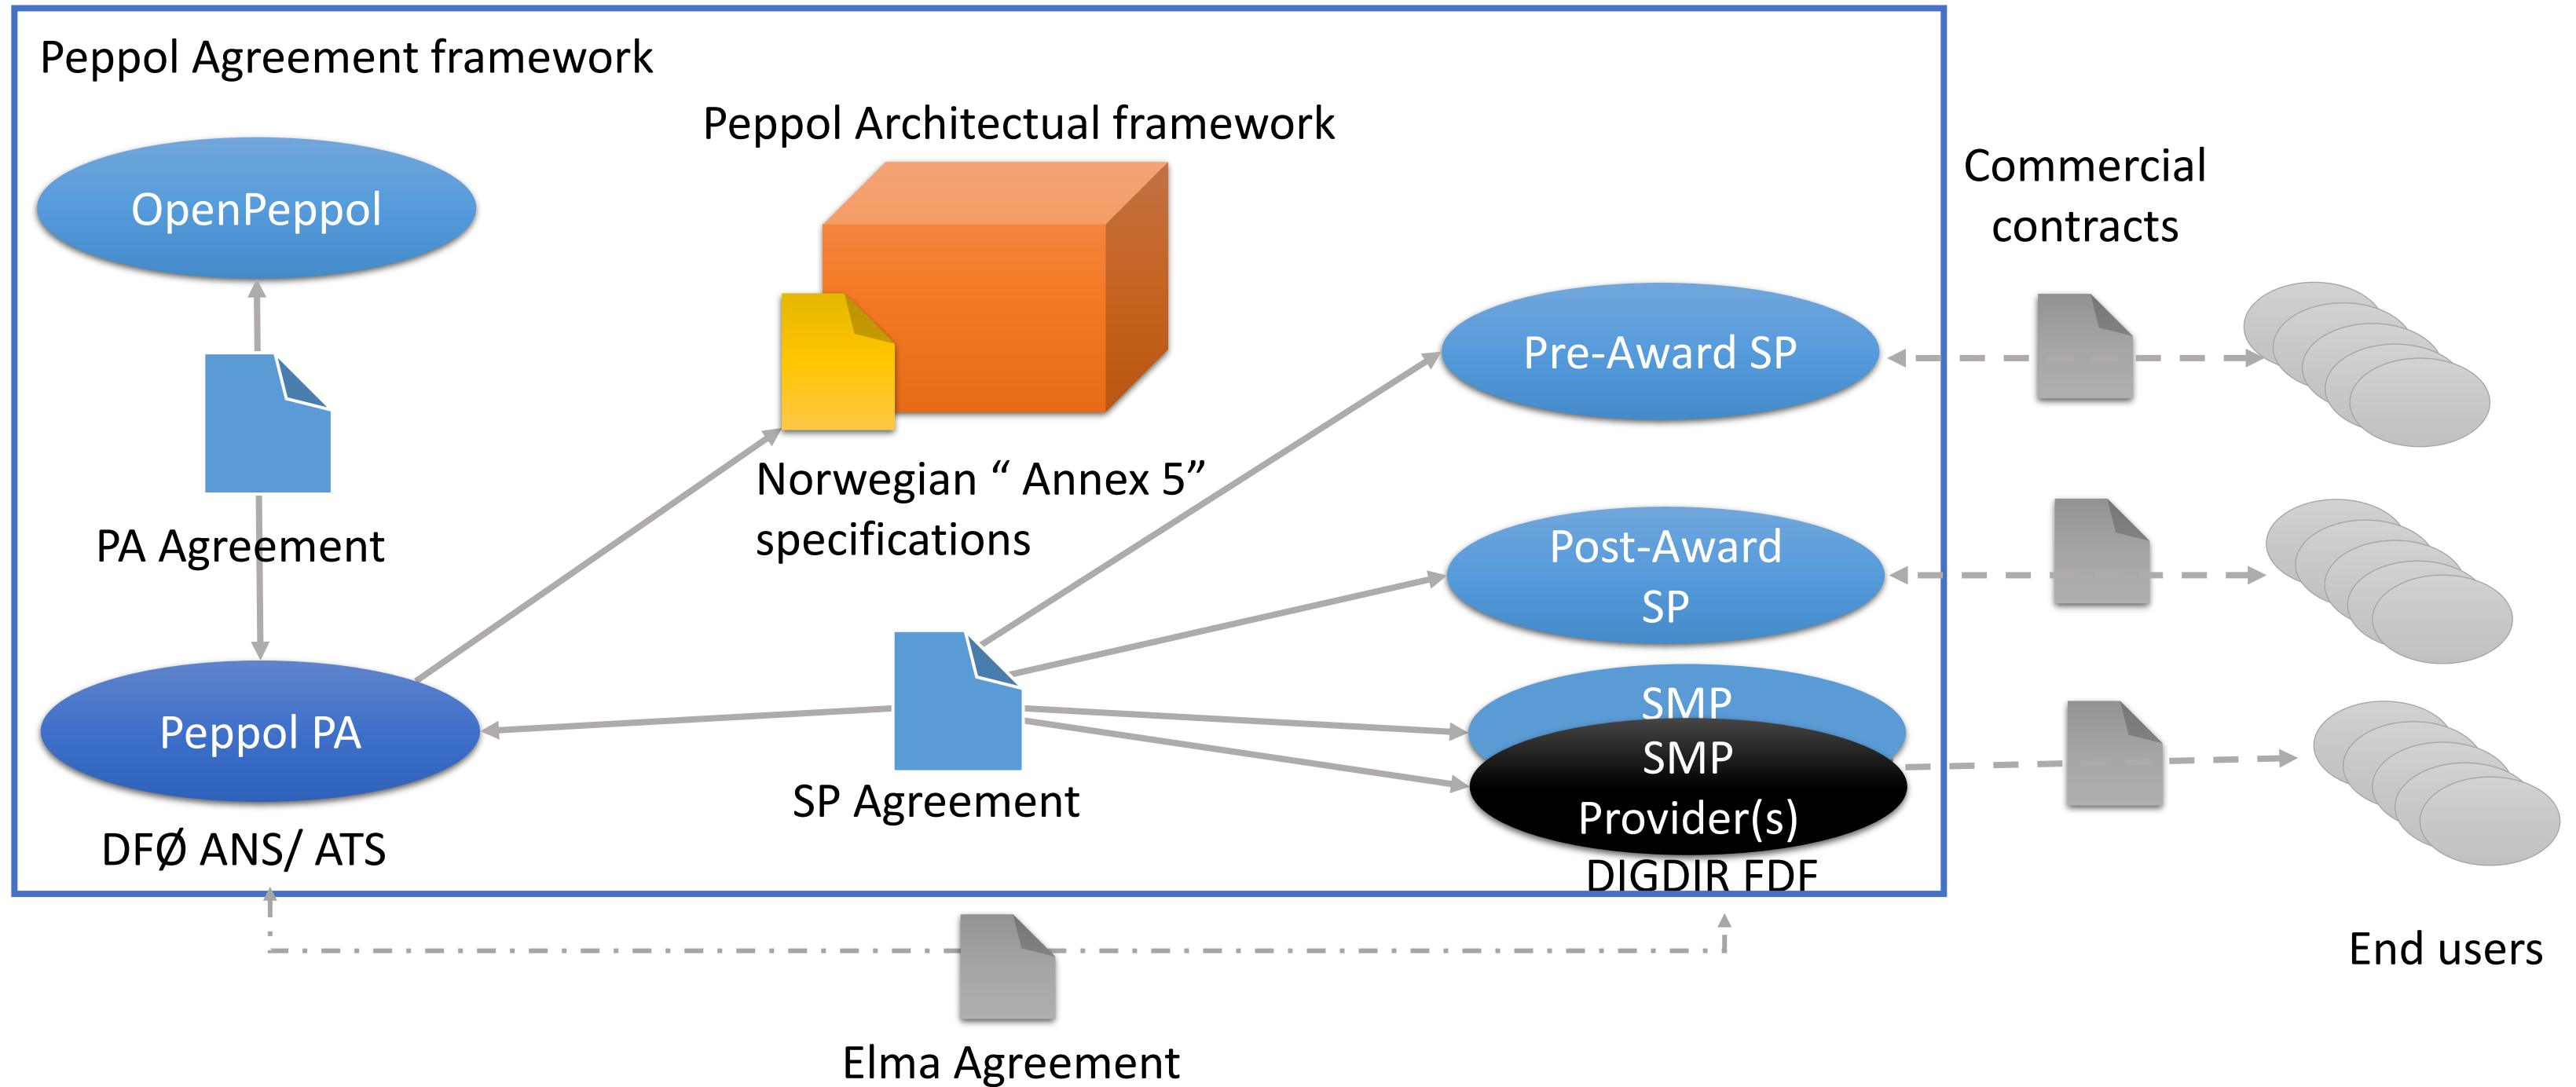

# Major changes

- Responsibility of the Service providers expanded to cover also BIS, encryption and packaging
- All Service Providers sign the same agreement (No national deviation in the contract)
- National requirements will be a universal requirement (no longer bound to the agreement relations)
- National requirements to end User registrations and to be clearly stated
- Additional requirements to SMP Providers to be expected

# Implementation strategy

1. Implementation for Service Providers planned to start from July 2020
2. Support materials and national specifications to be finalized prior to start of implementation of the agreement
3. Big bang strategy for migration to the new Authority Agreement – planned in June 2020
4. Common approach and shared materials to be used by the Authorities during migration
5. Annulment of old agreements planned in the autumn 2020, giving laggards 6 months to sign the new Service Provider Agreement from time of annulment notice

# Peppol Service areas covered by std. agreement Post-Award, Pre-Award & Lookup capabilities

# How to influence on terms and conditions

- Submit required change through the service desk
- Join the domain communities activities in order to gain impact on the decision processes
- Join community work groups to become part of decision makers
- Use the Service Provider community as vehicle for communication and escalation
